New Meadows City Council,

To whom it may concern -

In regards to the new business Bill Brown intends to put accross from the state shed

I believe any new business will be an asset to our community. This business will provide a convient location for services offered ~~at~~ to our community. It will provide jobs for our citizens and more reasons for customers to stop in our community. And see what we all have to offer! I would like to show my support for the approval of this new business. Thanks for your time & concideration

Richard L Brown
