RE: ZONING CHANGE FOR BROWNS MOUNTAIN RECYCLING SOUTH END PROJECT

The Idaho Transportation Department (ITD) has reviewed the referenced zoning change application for Browns Mountain Recycling South End Project on South End Road located south of US-95. ITD has the following comments:

- ITD has no objection to this application and requires no mitigation. No access was requested and none is approved.
- ITD has comprehensive rules governing outdoor advertising (IDAPA 39.03.60). The current trend toward high intensity signs has caused an increasing number of driver complaints on urban segments of the State Highway System. This applicant should be aware of the issue and plan the site's signing and lighting strategies accordingly.

If you have any questions, you may contact me directly at 332-7191.

Sincerely,

A handwritten signature in blue ink that reads 'James K. Morrison'.

James K. Morrison
Development Services Manager
