Subject: Public Hearing

Hi Mac,

I have a suggestion and a request. I would like to see the public hearing for cellphone tower and the date it will be held to be displayed on the digital sign at the park for the week coming up to the hearing so that everyone can be reminded and notified in a way that will most likely reach them.

Also, I drove by the notice on SE Road and the sign for notice of public hearing was too far from the road to read and was also nearly laying on the ground. I moved it closer to the road and reattached it so it was more visible. Still it is hard to read and even to notice. I think that to be fair to the public this notice should be displayed in very visible and bold ways.

Thank you.

Rye
